Summary

Computer Science student specializing in Software Engineering, with hands-on experience developing full-stack and backend web applications using C#, ASP.NET Core, Laravel, PHP, React.js, Node.js, SQL Server, MySQL, MongoDB, and RESTful APIs. Strong foundation in OOP, Data Structures & Algorithms, MVC architecture, database design, API development, authentication, debugging, and software engineering principles.

Technical Skills

Front-End: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap

Back-End: ASP.NET Core, Entity Framework Core, Node.js, Express.js, Laravel, RESTful APIs

Databases: SQL Server, MySQL, MongoDB

Languages: C#, PHP, Java, Python, C++

Concepts: OOP, Data Structures & Algorithms, Design Patterns, MVC, API Design, Debugging

Tools: Git, GitHub, Postman

Projects

- **AutoStock – Automotive Inventory Management System**
C#, ASP.NET Core (.NET 8), React, TypeScript, SQL Server, Entity Framework Core, JWT
GitHub: <https://github.com/mohamedelsayed31/AutoStock>
- **ElmasrawyVerse – Online English Learning Platform**
Laravel 12, React, JavaScript, MySQL, RESTful APIs, Laravel Sanctum
GitHub: <https://github.com/mohamedelsayed31/elmasrawyverse-english-learning-platform>
- **Smart Printer System – Print Shop Management Platform**
React.js, Node.js, Express.js, MongoDB, JWT
GitHub: <https://github.com/mohamedelsayed31/smart-printer-management-system>

Experience

Summer Training – Web Development using .NET

July 2026–Aug 2026

Information Technology Institute (ITI)

Remote

- Developed web applications using C#, ASP.NET Core MVC, Entity Framework Core, SQL Server, and Razor, covering CRUD operations, authentication, validation, database integration, and RESTful APIs.

Information and Communication Technology Intern Aug 2026
EL-HAMRA Oil Company On-site

- Gained practical exposure to data centers, servers, Cisco switches, network infrastructure, Ethernet and fiber-optic connectivity, IT support, and troubleshooting.

Software Engineering and IT Intern Aug 2026
Western Desert Operating Petroleum Company (WEPCO) On-site

- Supported .NET-based enterprise application development for petroleum industry operations, with exposure to SAP/ERP systems, cloud services, networking, and enterprise IT environments.

Information Technology and Systems Intern July 2026
Suez Oil Processing Company Hybrid

- Gained exposure to SQL, Oracle APEX, web development, Active Directory, cybersecurity, networking, and enterprise IT systems, while gaining an understanding of petroleum industry operations and HSE practices.

Summer Training – Full-Stack Web Development using PHP July 2025–Aug 2025
Information Technology Institute (ITI) Remote

- Developed full-stack web applications using Laravel, PHP, MySQL, and AJAX, implementing authentication, validation, CRUD operations, and database management.

Research & Publications

- **A GIS-Aware Deployment-Optimized Wireless Sensor Network for Early Forest Fire Detection** — IEEE IMSA 2026, Accepted & Presented
- **Efficient Human Activity Recognition Using Magnitude-Enhanced Statistical Features and Extra Trees Ensemble** — IEEE IMSA 2026, Accepted & Presented

Education

October University for Modern Sciences & Arts (MSA University) Giza, Egypt
B.S. in Computer Science, Software Engineering Expected Graduation: July 2027

Certifications

- Full Stack Web Development using PHP – Telecom Egypt (WE)
- Programming Fundamentals Diploma – Route IT Training Center

Languages

Arabic: Native

English: Upper-Intermediate
