Summary

Computer Science student specializing in Software Engineering, with hands-on experience developing web applications using C#, ASP.NET Core MVC, Entity Framework Core, SQL Server, Laravel, PHP, React.js, Node.js, and RESTful APIs. Strong foundation in OOP, data structures and algorithms, MVC architecture, database design, debugging, and software engineering principles. Interested in building scalable and maintainable software solutions.

Technical Skills

Front-End: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap

Back-End: ASP.NET Core MVC, Entity Framework Core, Node.js, Express.js, PHP, Laravel, REST APIs

Databases: SQL Server, MySQL, MongoDB

Programming: C#, Java, Python, C++

Concepts: OOP, Data Structures & Algorithms, Design Patterns, MVC, API Design, Debugging

Tools: Git, GitHub, Postman

Projects

- **AutoStock – Automotive Inventory Management System**
C#, ASP.NET Core (.NET 8), React, TypeScript, SQL Server, Entity Framework Core, JWT
GitHub: <https://github.com/mohamedelsayed31/AutoStock>
- **Smart Printing Management System (React.js, Node.js, Express.js & MongoDB, Bootstrap):**
Built a full-stack print shop management platform with a React dashboard and RESTful APIs for managing jobs, inventory, revenue, attendance, and material usage.
- **Full-Stack E-learning Management System (Laravel, PHP & MySQL):**
Developed a full-stack e-learning platform with course management, student enrollment, authentication, and a gamified reward system using Laravel, PHP, and MySQL.
- **IoT-Based Fire Detection System (Arduino & Flutter):**
Developed an IoT-based fire detection system using Arduino, environmental sensors, and a Flutter application for real-time monitoring and automated alerts.

Research & Publications

- **A GIS-Aware Deployment-Optimized Wireless Sensor Network for Early Forest Fire Detection** — Accepted & Presented at IEEE IMSA 2026

- **Efficient Human Activity Recognition Using Magnitude-Enhanced Statistical Features and Extra Trees Ensemble** — Accepted & Presented at IEEE IMSA 2026

Experience

Summer Training – Web Development using .NET

July 2026–Aug 2026

Information Technology Institute (ITI)

Remote

- Gained hands-on experience developing web applications using C#, ASP.NET Core MVC, Entity Framework Core, SQL Server, and Razor.
- Developed practical skills in CRUD operations, database integration, validation, authentication, RESTful APIs, and MVC architecture.

Information and Communication Technology Intern

Aug 2026

EL-HAMRA Oil Company

On-site

- Gained hands-on experience with IT infrastructure, data centers, servers, Cisco switches, network racks, Ethernet and fiber-optic connections.
- Gained practical knowledge of networking, IT support, system maintenance, troubleshooting, and ICT operations within the Oil & Gas industry.

Summer Trainee – Petroleum Industry

Aug 2026

Western Desert Operating Petroleum Company (WEPCO)

On-site

- Gained introductory exposure to the oil & gas industry and the company's professional working environment.
- Developed a general understanding of petroleum industry workflows, operational concepts, and industry practices.

Information Technology and Systems Intern

July 2026

Suez Oil Processing Company

Hybrid

- Gained hands-on exposure to IT infrastructure, networking, cloud services, cybersecurity, enterprise systems, Active Directory, and SAP/ERP fundamentals.
- Gained practical knowledge of SQL, data processing, Oracle APEX, and web development using HTML, CSS, and JavaScript.

Summer Training – Full-Stack Web Development using PHP

July 2025–Aug 2025

Information Technology Institute (ITI)

Remote

- Gained hands-on experience in full-stack web development using Laravel, PHP, MySQL, AJAX, and front-end technologies.
- Developed web applications featuring authentication, validation, CRUD operations, student enrollment, and database management.

Education

October University for Modern Sciences & Arts (MSA University)

Giza, Egypt

B.S. in Computer Science, Software Engineering

Expected Graduation: July 2027

GPA: 3.17 / 4.0

UK GPA: 3.37 / 4.0

Certifications

- Full Stack Web Development using PHP – Telecom Egypt (WE)
- Programming Fundamentals Diploma – Route IT Training Center

Languages

Arabic: Native

English: Upper-Intermediate
